***PLEASE NOTE:*** We will not sell single donkeys unless they are going to a home where there already is another long eared friend. Donkeys do not cope well on their own, they simply are very social animals and while they get along with other species, we find they are much, MUCH happier and healthier in the company of another donkey. Further, the research shows that donkeys tend to bond in pairs – forming lifelong relationships with their buddies. Even within the herd they will pair off – unlike horses, who are herd animals and happiest when they are (any) part of a herd.

***Why would you like to own donkeys? Tell us about yourself and what kind of home you would offer?***

***How much land do you have?***

***Do you have shelter available?***

***Are you after geldings? Jennies? Any particular other requirements?***

***How much time do you have available for the donkeys?***

***Anything else you would like to add?***

***Thank you for your business!***
